Smiley pillow

duration: 30 - 60 minutes
age: from 7 years

Make your own smiley pillow

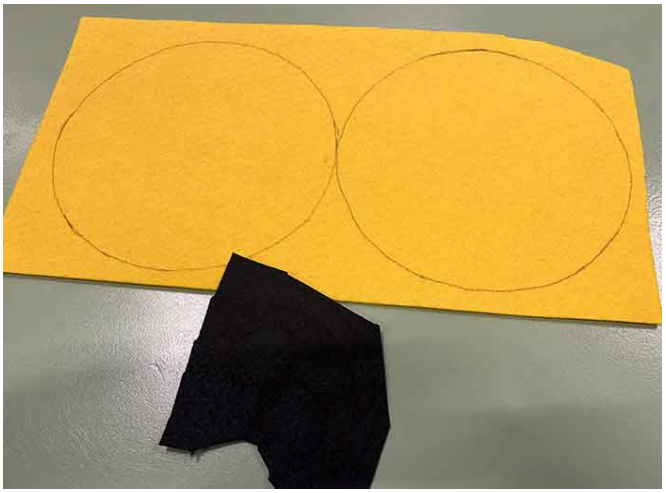
undefined

tools

- [ ] Scissors
- [ ] Fabric scissors
- [ ] Pen
- [ ] Sewing machine
- [ ] Sewing needle
- [ ] Pins

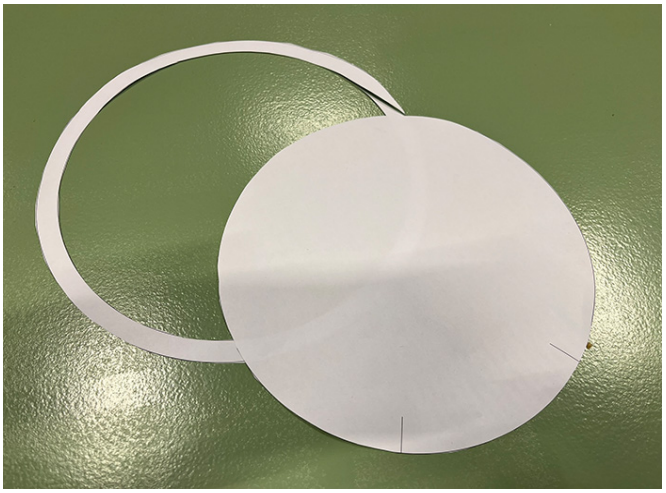
materials

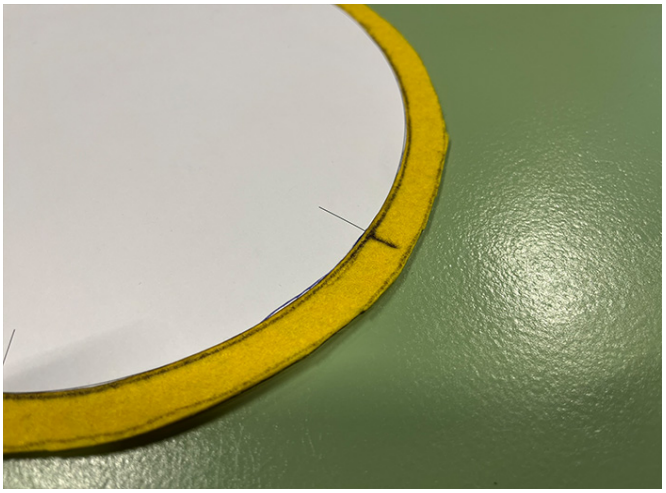
- [ ] Felt (yellow and black)
- [ ] Stuffing
- [ ] thread

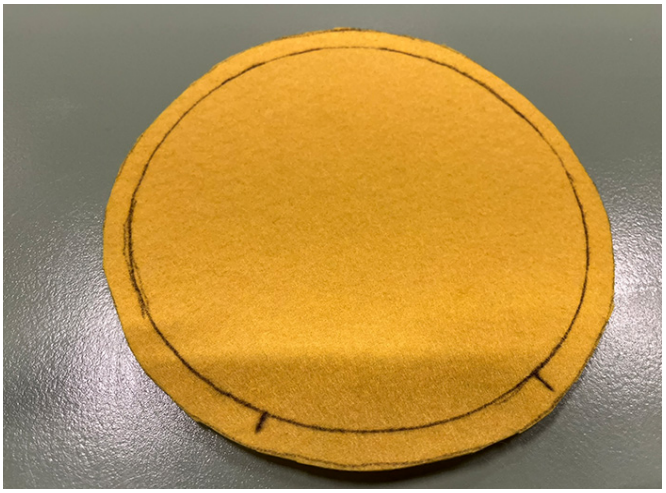


1 Cut the felt

- Cut the paper template.
- Trace the template onto the felt. Make sure to trace the smiley face on the yellow felt (2x) and the eyes (2x) and mouth on the black felt.
- Cut the felt using fabric scissors.





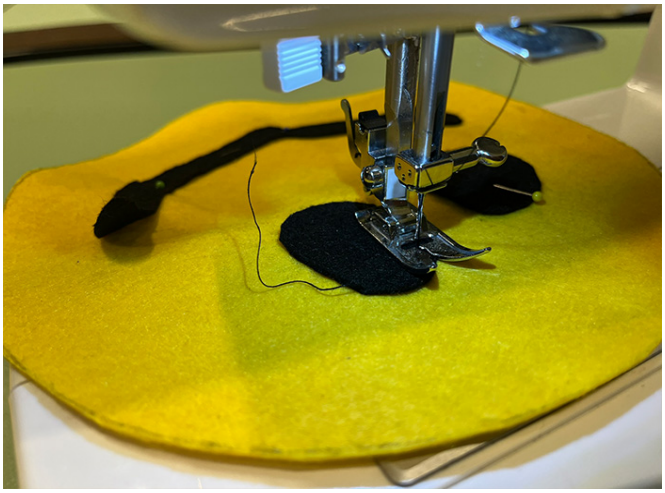


2 Mark the sewing line

- Cut the outer ring off the big circle template.
- Place the smaller template on top of one of the felt circles you just cut out.
- Trace the smaller circle onto the felt.

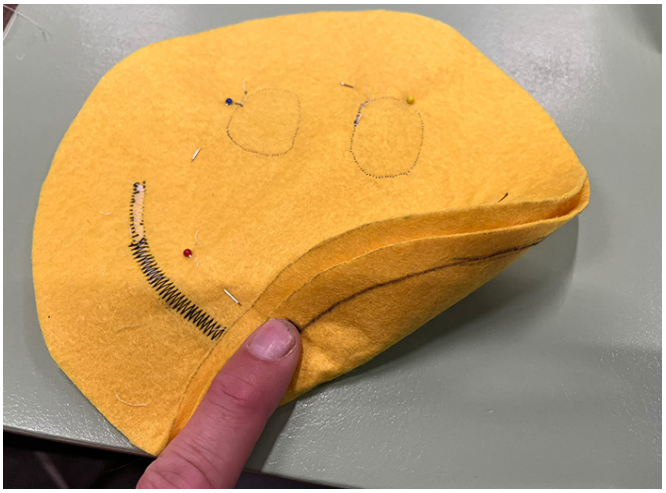
3 Pin the eyes and mouth

- Place the eyes and mouth on the yellow felt without the line you drew in the previous step.
- Use some pins to fix them in place.



4 Sew the eyes and mouth

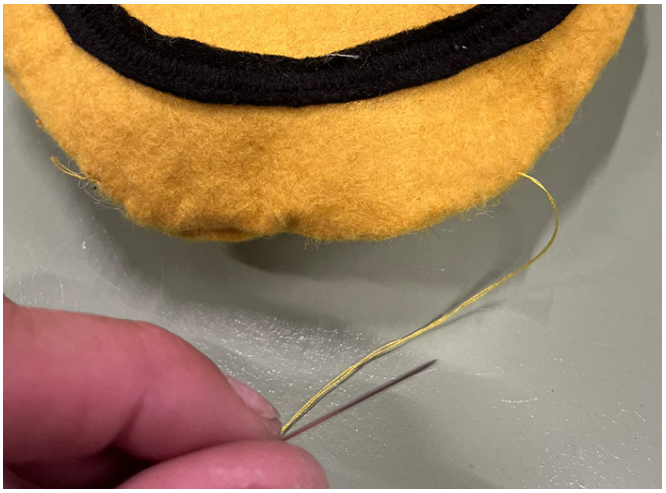
- Sew the eyes.
- Use a wider zig-zag stitch to sew down the mouth.



5 Sew the front and back together

- Do not sew all the way around. We need a gap to turn the pillow right side out.

- Put the face onto the other piece. Make sure the face is against the side without the smaller circle drawn onto it.
- Pin the two pieces together.
- Sew the front and back together following the line you drew in an earlier step. Make sure you start and stop at the lines indicated on the template.



6 Fill the pillow

- Pull the pillow right side out.
- Fill the pillow with stuffing.
- Manually stitch the hole shut.
- You're done!
